Helen Hsieh

UI/UX Designer
helenn1219@gmail.com | Portfolio | LinkedIn

Summary

UI/UX Designer with over six years of experience in web and digital design, including e-commerce websites, member services, and digital tours. Develops user flows and prototypes that support clear navigation and task completion across multiple devices. Builds reusable Figma components to maintain consistent interaction patterns, with hands-on experience creating responsive pages using HTML/CSS. Works with PMs and engineers to clarify design details and review interfaces before launch.

Experience

UI/UX Designer Sep 2024 – Oct 2025
Omniguider, Foxconn Technology Group *Taipei, Taiwan*

- Designed user flows and interfaces for a brewery tour system covering 13 locations in four languages across mobile, web, and kiosks. Translated engineering floor plans into illustrated visitor maps to support on-site navigation.
- Created user flows, clickable prototypes, and high-fidelity screens for four outdoor AR experiences in an existing museum app. Refined contrast and button hierarchy after on-site checks to improve readability in outdoor lighting.
- Proposed a toggle between walking and wheelchair routes and helped design destination search and floor switching for a company event at Taipei Dome with about 35,000 attendees, helping visitors locate destinations across multiple floors.
- Built shared Figma components and variants for search, POI cards, floor controls, and language switching, keeping interaction patterns consistent across tour and event navigation projects.

UI/UX Designer Aug 2022 – Mar 2024
GOMAJI *New Taipei, Taiwan*

- Designed and built more than 20 responsive campaign pages using HTML/CSS for seasonal sales and themed promotions on GOMAJI's e-commerce platform. Reported campaign results included a 30% increase in conversion rate.
- Delivered desktop and mobile interfaces for a public event website, checking layouts across screen sizes, and adapted the event's key visual for invitations, banners, and printed materials to maintain visual consistency within a three-week project schedule.
- Created membership pages explaining how members earn and use points, along with social graphics for related promotions.

Senior Web Designer Nov 2019 – Apr 2022
AccuHit AI Technology *Taipei, Taiwan*

- Designed consumer-facing interfaces for a LINE coupon service supporting retail and online redemption, including coupon selection, wallet, countdown timer, barcode display, and success, expiry, and error states.
- Prepared UI guidelines and handoff notes for the coupon service. Worked with the CMS designer to align screens with campaign settings and checked redemption flows with PMs and engineers during QA.
- Created member pages displaying membership levels and points history, and invoice registration forms with clear instructions, error messages, and submission results.
- Built course websites using shared templates, turning wireframes into responsive HTML/CSS pages and adding tracking codes. The course programs reported a 32% registration conversion rate and over 90% satisfaction.
- Delivered more than 10 landing pages and email campaigns for technology, finance, insurance, and retail clients, designing layouts and visuals based on each client's brand guidelines.

Marketing Design Specialist Apr 2018 – Jul 2019
Pro-Do International *Taipei, Taiwan*

- Designed mobile-friendly product pages using existing website templates, with clear layouts and calls to action.
- Ran A/B tests on Facebook ad creative, with reported results showing a 25% increase in click-through rate.
- Created web banners, social graphics, logos, and print materials, following each client's visual style.
- Managed brand social media accounts and planned content for product promotions and marketing campaigns.
